Stop Eating Dogs Ltd is a not for profit company operating in accordance with the Fundraising Regulator's Code of Fundraising Practice.

These dogs, like millions of others, will NEVER feel the earth beneath their paws as they will be kept in these tiny cages until the day they are slaughtered. See the total despair in the mother dog's eyes, this is the horror of a dog meat farm (of which there are thousands)... and they eat cats too. It is unimaginably cruel and it must be stopped.
